

## Talking About Real Clothes

Clothes that are as certain to wear as if you were an experienced weaver and manufacturer and had yourself superintended the milling of the fabrics and the making — Clothes that cannot but impress young men — Do you know where to locate them? We'll tell you — But first—do you know that every yard of cloth used in the product of Globe Tailoring Co. is machine and hand tested—that sturdiness vies with pattern and steadfast colors? Do you know that you cannot purchase garments as strong and as good and as smartly styled as these from any other manufacturer at prices the same as ours? Don't you want to see the sort of men's suits that we sell at from \$18.00 to \$50.00.

## SEVERAL INJURED IN FREIGHT WRECK

Operator at Santa Rosa Is  
Said to Be to Blame for  
the Wreck.

Pastura, N. M., May 3.—A head-on collision between two freight trains, extra 214, west, and extra 214, east, occurred at 12:30 p. m. Monday, a mile east of Santa Rosa, in what is known as "the big cut." Eastbound extra 214 was in charge of conductor D. E. Hale and engineer Rousch, and westbound extra in charge of S. J. Averill and engineer J. D. Richardson.

The westbound train had 45 empty stock cars, and the eastbound extra was a scheduled stock train with 25 cars of cattle. The crews on both trains jumped and so far as can be learned all escaped death. Brakeman Tom Gustin and fireman D. Evans, of the cattle train, were the most seriously injured.

Gustin's spine was injured and he sustained some bad bruises about the head. Evans had his ankle sprained and got a severe laceration in the side. Dr. J. F. Rudolph, the Southwestern company's physician, went to the scene of the wreck at once and brought the injured men to Santa Rosa and there took them to the Alamosa hospital on No. 37 last night. General manager H. J. Simmons kindly instructed that a special train be furnished to convey the injured employees to the hospital.

Dr. Rudolph said he did not consider their injuries were of such a serious nature as to demand a special train.

Brakeman L. G. Maitland, on extra 214, west, was also slightly injured, but went on about his duties and helped care for his wounded fellow trainmen.

The twenty-six cars of cattle were badly shaken up, in fact, the two front cars of about 65 head were nearly all killed outright. There were something like 800 head of cattle on the stock train.

The track was torn up so it is impossible for trains to pass for several hours. The cattle were returned to Santa Rosa, and those that were alive were unloaded and fed and watered and were forwarded this morning.

The responsibility for the wreck is said to rest upon operator S. E. Paxton, who cleared the eastbound stock extra at Santa Rosa, and his semaphore board when he had two orders on the table for the trains. One of the orders read that extra 214, east, will get this order and meet extra 214, west, at Santa Rosa. Paxton has retired, but room at the hotel and is crazed with grief and refuses to be interviewed. He has been employed as operator on the Southwestern for over a year and was a trusted employee, and apparently a bright young man and well liked by all of his associates. His home is at Roy, New Mexico.

While entertaining a party of friends at their home Mr. and Mrs. Perting became violently ill. They had eaten mushrooms a few hours before. They have recovered.

Mystery still surrounds the death of J. W. Reel, which occurred at a Broadway rooming house. Brown, the man in whose room Reel died, has been released from custody. The dead man was a miner at the Holbrook shaft. His wife and children live in Tombstone canyon.

THE NOSE COUNTER  
MISSED THE ROOSEVELTS

"Most Representative Citizen" Is Not  
Counted In the Census up at  
Oyster Bay.

Oyster Bay, N. Y., May 3.—Theodore Roosevelt, although "our most representative citizen," in President Taft's opinion, may not be enumerated in the census of 1910, despite the zeal and intelligence of the enumerators. This result is likely from the fact that the Roosevelt home is here, the legal residence of the colonel is closed and every member of the family is away. There are not even any servants in the house and the neighbors cannot answer the questions of the enumerator, as some of them concern family history. There is also universal doubt here as to what is the colonel's present trade or profession.

By coincidence another Theodore Roosevelt was enumerated during the canvass in this vicinity. He was a tramp, whose place of residence is given as "homeless."

LORDSBURG MAN NAMED  
AS NEW MEXICO RANGER

Santa Fe, N. M., May 3.—Governor Mills appointed P. A. Andrews, of Lordsburg, Grant county, a special mounted policeman.

## A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness, not only outside, but inside. It means a clean stomach, clean bowels, clean blood, clean skin, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery  
prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

There is nothing too strong for me to say in its favor. It is a wonderful remedy."
